PROFESSIONAL SUMMARY

Final-year Information Technology student at CMC University focused on backend engineering. Hands-on experience building Java/Spring Boot and NestJS REST APIs for ERP, healthcare and e-commerce applications. Familiar with SQL, database design, JWT/RBAC, API testing and Git workflows. Seeking a Developer Intern opportunity to strengthen Java backend skills through mentoring and real-world projects.

TECHNICAL SKILLS

Languages: Java, SQL, TypeScript, JavaScript, Python
Backend: Spring Boot, Spring Security, Spring Data JPA/Hibernate, NestJS, Node.js, REST APIs
Databases: PostgreSQL, MySQL, MongoDB; schema design and relational queries
Tools & Practices: Git, GitHub, Maven, Postman, Swagger, Docker, JUnit/MockMvc, OOP, DSA basics, JWT, RBAC

EXPERIENCE

Java Backend Intern | RikkeiEdu (Rikkeisoft)

Sep - Dec 2025

- Completed a Java Backend internship/training program at RikkeiEdu, building Spring Boot REST APIs and implementing database-backed business logic.
- Practiced authentication and role-based access, tested APIs with Postman, and used Git for project collaboration and bug fixes.

SELECTED PROJECTS

SinoStock ERP - Inventory & Sales Management

GitHub

Team size: 1 (individual) | Role: Full-stack Developer (Java Backend focus) Oct 2026

Java 21 / Spring Boot / Spring Security / JPA/Hibernate / PostgreSQL / React

- Developed role-based REST APIs for inventory, purchase/sales orders, receivables and business reports; modeled entity relationships with JPA.
- Implemented JWT security, stock/order workflows and API documentation; added backend tests with JUnit and MockMvc.

HealthAI - Healthcare Appointment & AI Triage

GitHub

Team size: 1 (individual) | Role: Full-stack & AI Developer Oct 2026

Java 21 / Spring Boot / PostgreSQL / JWT / Python FastAPI / React

- Built patient, doctor and admin APIs for appointments, schedules and payment status using Spring Security, JWT and PostgreSQL.
- Integrated a FastAPI service for AI-assisted specialty suggestions; project is a portfolio MVP under development.

ShopTech - Multi-vendor E-commerce Platform

GitHub

Team size: 5 | Role: Backend & AI Developer Jun - Aug 2026

NestJS / TypeScript / MongoDB / React / React Native / FastAPI

- Developed backend modules for authentication, stores, products, carts and orders; applied JWT/RBAC and MongoDB data access.
- Connected web/mobile clients, payment integration and a FastAPI-based RAG chatbot with product recommendations.

EDUCATION & LANGUAGE

CMC University | Information Technology (Software Engineering) | 2023 - Present | Final-year student
Coursework: Object-Oriented Programming, Data Structures & Algorithms, Database Systems, Software Engineering.
English: Basic technical reading; currently improving listening and spoken communication.
